PRESS RELEASE

FOR IMMEDIATE RELEASE

RBH TO SHOW NEW WIRELESS SPEAKER SERIES AT CEDIA EXPO

Layton, Utah – September 1, 2017 – RBH Sound (RBH), a manufacturer of high performance loudspeakers and audio products, today announced they will be showing their series of high performance self-powered, wireless speakers at the 2017 CEDIA Expo next week in San Diego, California.

RBH's wireless speakers feature the latest Bluetooth technology for quick and easy listening. In their pursuit of higher fidelity, RBH incorporated WiFi into the series' higher performance models. Some of the Bluetooth/WiFi models feature amplifiers with up to 200 Watts of power and some include a built-in Echo Dot which provides Alexa voice control. The Echo Dot also allows listeners to stream music directly from Amazon and provides access to a plethora of Alexa services and skills. RBH's founder and president, Roger B. Hassing said of the new series, "I am ecstatic about the fact that with RBH's new high fidelity wireless speakers you will now have pure fidelity with an almost unlimited amount of choices of music all from the convenience of your phone or tablet."

RBH will be showing their wireless speaker series at their demonstration room (SR-3) at CEDIA Expo. RBH's new wireless speakers are available now via their web site (<http://rbhsound.com>) as well as through their authorized dealers.

About RBH Sound (RBH)

A Utah-based company, RBH is privately owned and operated by the founder of the company, Roger B. Hassing. Since 1976, Mr. Hassing and his staff have been designing, engineering and crafting high performance speakers, custom audio and personal audio products; delivering superior acoustic reproduction at sensible prices.
