

# SI-740

IN-WALL SPEAKER

Perfect for the listener who demands high performance from a smaller in-wall footprint, the SI-740 is a two-way design that works well as the main and surround speakers in an in-wall surround sound system, or as a pair of in-wall surround speakers to compliment a pair of freestanding Signature Series speakers. Its 6½-inch aluminum cone woofer and 1-inch silk dome tweeter deliver incredible realism and detail not typical of regular in-wall speakers.
