

C-4

CENTER/LCR SPEAKER

With an extra 4-inch woofer in a woofer-tweeter-woofer configuration, the compact C-4 can easily and discreetly be placed atop a television or entertainment center to superbly perform its center channel duties. Due to its design, the C-4 can also be used throughout a home theater system (see CT-MAX) and also works very well for two-channel music when combined with either an MS-8.1 or MS-10.1.
