

EP1 and EP2

NOISE ISOLATING EARPHONES

RBH brand speakers have been winning awards and, more importantly, winning the hearts of audio enthusiasts for many years. RBH Noise Isolating Earphones deliver the high fidelity our company is known for to your iPhone®, iPod®, MP3 player, smart phone or other personal audio player. Regular earbuds, like the ones that come with your player, just can't match the performance or noise isolation capabilities of our earphones delivering a wide sound stage free from outside noise and interruptions. Aluminum housings, premium materials, strict tolerances, gold connector jack and a cloth woven cord for comfort and fewer tangles are just some of the features of RBH Noise Isolating Earphones.

EP1 Noise Isolating Earphones with Comply Foam Tips™
