SUPREME MUSICALITY

RBH SIGNATURE TOWER WITH 6 1/2" BASS DRIVERS

You have discovered the signature sound of RBH speakers! This 3-way tower with 6 1/2" aluminum drivers represents the sonic foundational performance of all RBH products.

Setting the ultra-high standard baseline, this is the "beautifully basic" in-room speaker RBH Sound is most recognized for. Available in either standard or reference configuration.

6500-SF 6500-SF/R

The 6500-SF tower speaker provides big sound from its small profile. With its 3-way driver complement of three 6½-inch aluminum cone woofers, two 6½-inch midrange drivers, and a 1-inch fabric dome tweeter, the 6500-SF delivers all the impact and clarity of a much larger speaker. The bass reflex cabinet of the 6500-SF helps it to deliver unrivaled detail and accuracy; not only is it more than capable of playing the most dynamic scenes in a movie, but it can also flawlessly reproduce music with lifelike imaging.

Want to enhance the experience further? The 6500-SF/R is the answer! This upgrade includes:

- RBH Reference AMT tweeter
- Dual RBH Reference aluminum mid drivers with solid metal phase plugs
- Enhanced crossover circuit

SF-SERIES
Freestanding
Bookshelf
On-wall

- Available in black or silver, standard or reference aluminum drivers

- Provides timbre matched options for multi-channel sound across all freestanding, bookshelf, on-wall and in-wall products in the SF, SV or SI-Series
