

SVTR-AX

SVTRS-AX

UNRIVALED series

rbh reference product

SVTRS includes top bass module

8" aluminum mids in dispersion-averaging alignment

High output AMT tweeter

THE PINNACLE OF SPEAKER TECHNOLOGY

Mid module designed for sand loading

Eight coats of gloss black polyester

12" reference aluminum sub drivers

The future is here! Step into the world of a fully active speaker system with unrivaled dynamics, incredible clarity, and unbeatable imaging.

SVTR: Has one subwoofer module per tower, perfect for medium to large rooms.

SVTRS: Provides an extra subwoofer module on top for added bass output in large rooms.

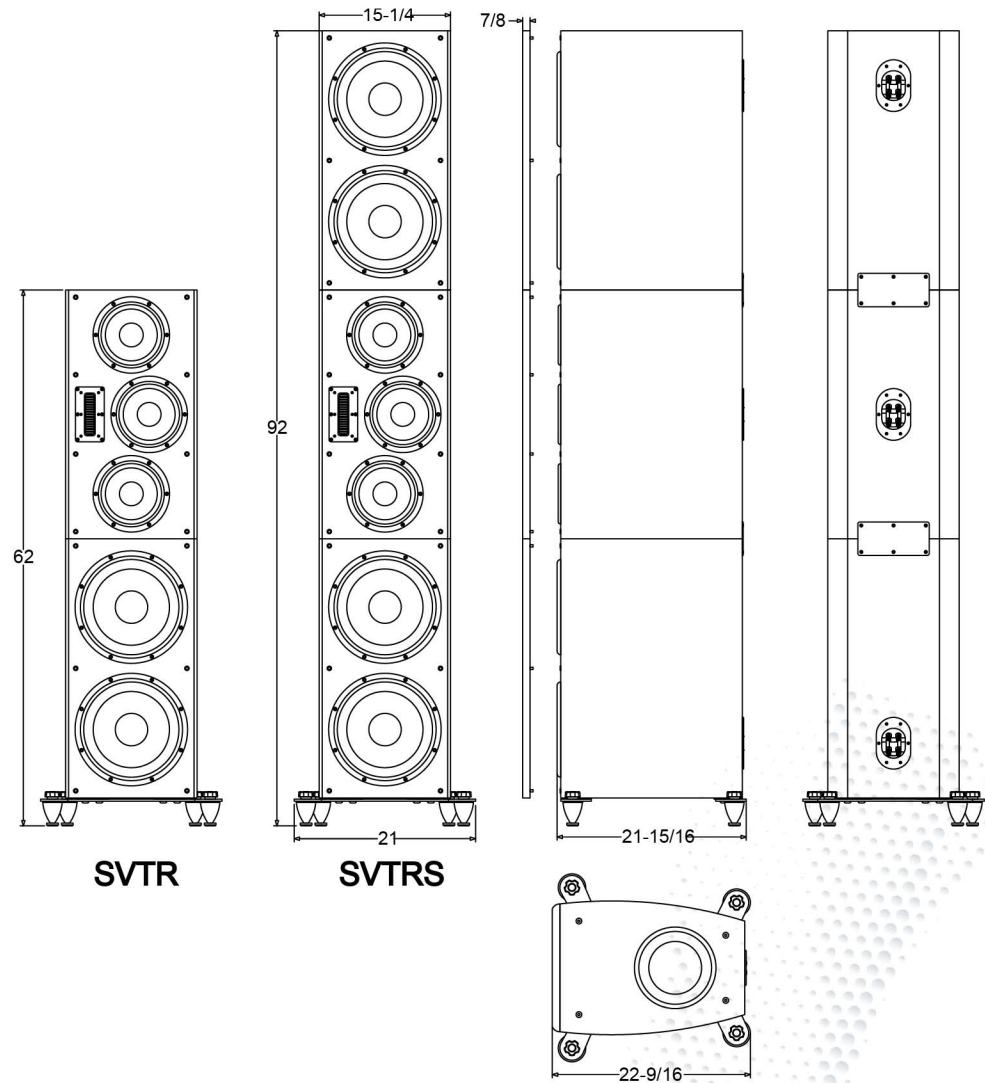

SVTR(S)-AX

Each pair of these staggering 92-inch (3.86m) tall, ultimate modular towers presents a full range sonic experience that is truly unrivaled at any price. Dressed in a spectacular eight-layer polyester high-gloss piano black finish, each SVTRS-AX is comprised of four SV-1212NR subwoofers and two SV-831R modules that are integrated with a Linear Phase FIR filter processor which time aligns the drivers and linearizes the frequency response of the speaker system to within an unprecedented ± 1 dB. The large air motion transformer (AMT) tweeter integrates perfectly with the proprietary aluminum-cone mid-bass woofers which are purposefully arranged in what we call a "dispersion averaging alignment." This driver alignment reduces the typical lobing interference between separate drivers producing the same frequencies and provides more focused imaging throughout the soundstage. Amplification for the speakers is handled by RBH Unrivaled amplifiers which provide 250 Watts per channel for the AMT tweeters, 500 Watts per channel for the 8-inch woofers, and 1,500 Watts per channel for each of the dual 12-inch long throw subwoofers. Yes, that is 7500 Watts of total available power! A customized digital signal processor provides active crossover management with linear phase filters for optimal time alignment at the listening position. The SVTRS-AX Limited Edition is so detailed, so controlled, and so sonically accurate that it will simply leave you in awe. Each system is set up and calibrated on-site by an RBH Sound team member to ensure your experience is nothing but perfect.

*Limited 10 year speaker, 3 years amp warranty (with registration) from date of purchase to be free from defects and workmanship. For more information contact your RBH dealer or check our website.
