VA-610

White Stainless Steel Grille

Black available

AFFORDABLE ARCHITECTURAL SPEAKER OPTIONS

You'll be pleasantly surprised how versatile the VA/VM-610 is. From whole home, dedicated listening room, game room to smaller theater, this duo can do it all.

Add our VA/VM-414 or VM-616 as center channel or combine with any RBH Visage models for ultimate design flexibility. Complete your install with SI in-wall subs for the full impact!

VA-610 VM-610

The VA-610 in-wall speaker represents the most versatile choice for practically any application, from an in-wall home theater to a high-quality listening room. The excellent sound quality derived from the precise integration of the 6½-inch poly-graphite woofer and 1-inch silk dome swivel tweeter provides delightful listening in any room. The VA-610 also features a tweeter sound contour switch which allows the tweeter output level to be customized for any room.

The VM-610 is the original 6½-inch aluminum cone in-wall speaker. The use of a 6½-inch aluminum cone woofer allows this speaker to have incredible bass response and increased power handling. The VM-610 allows the listener to experience sound as it was meant to be heard, without colorations or distortion.
